

LES PARCELLAIRES

de Saulx

ALOXE CORTON
1^{ER} CRU "LES GUÉRETS"

RICH AND DELICATE

THIS "CLIMAT"

Located on the hillside, this particularly stony climat was left uncultivated for a long time. Its name is therefore derived from the Old French "Jarrie" which was used for areas that were difficult to cultivate.

TERROIR

Located just outside the village of Aloxé-Corton, the "Les Guérets" climat extends over the bottom of the hillside on an east, south-east facing mound. It is formed of clay, very fine marl and limestone.

TASTING

Appearance: sombre and full

Bouquet: delicate and elegant nose with complex notes of fresh red fruits

In the Mouth : the mouth feel is creamy and complex and reveals notes of blackberry and blackcurrant. The finale is fresh to provide great balance with the silky tannins.
