

LES PARCELLAIRES

de Saulx

ALOXE CORTON 1^{ER} CRU
"LES VALOZIÈRES"

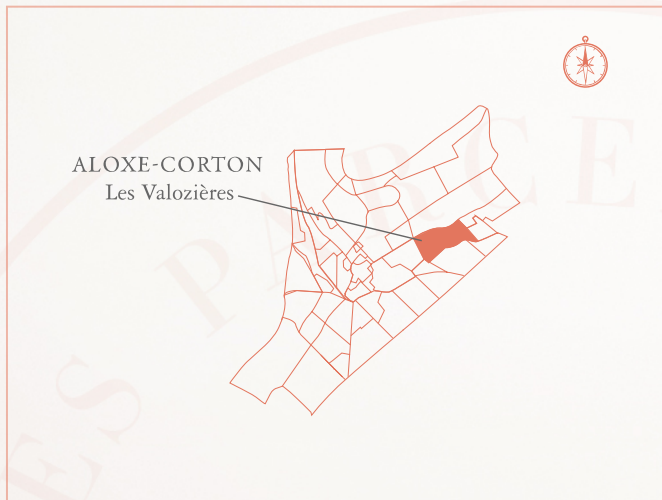

ELEGANT AND POWERFUL

THIS "CLIMAT"

In Aloxé Corton, this climate is located in a slightly humid hollow valley where wicker trees grew whose flexible branches are used to make links to attach the vines and for basketry works.

TERROIR

Located below the Grands Crus "Corton Les Bressandes", this climate is mid-slopes with a South/South East exposure. The slope is gentle with fresh soil made up of numerous scree retaining humidity. This clay-limestone soil is composed of clay on the surface, brown limestone pebbles in depth and marl.

TASTING

Appearance : deep ruby red

Bouquet : elegant and powerful in a complex floral style, spicy with notes of red and black fruits such as raspberry, strawberry, cherry and also blackcurrant.

In the mouth : full-bodied, deep and distinguished with a beautiful generous structure supported by notes of red fruits, spices and melted tannins.
