MOREY SAINT DENIS

ELEGANT AND SUAVE

## TERROIR

Facing the rising sun, this terroir consists of limestone and clay-limestone soil of the Middle Jurassic with white oolites at the top of the slope.

## TASTING

Appearance: Bright ruby and carmine colour with intense garnet tints

Bouquet: Black fruit aromas such as blackcurrant and bilberry combined with stoned red fruit aromas, such as cherry and sloe.

In the mouth: Sustained and intense with the perfect balance between the expression of fruit and controlled power, supported by silky, molten tannins.
